DISABILITY INSURANCE

Did you know more than 25% of today’s 20 year-olds will experience a disability during their careers? ¹

The chance of being unable to work due to illness, injury, pregnancy or childbirth is greater than many members realize. And a recent study showed that over half of the members surveyed only had enough in savings to last 3 months if they were unable to work.² Disability Insurance can help.

Consider these reasons:

- Most public employees are not eligible to receive State Disability Insurance.
- Many disabilities are not work related and not covered by workers’ compensation.
- Disabilities often last for at least three months.
- Your employer may not provide disability insurance.

CTA offers Voluntary Disability Insurance from The Standard to help you avoid a sudden interruption of income due to a disability.
